SUBJECT INDEX

Ab initio calculations
How reliable are ab initio calculations?, 197
Amantadine
A molecular modelling study of the anti-viral agent amantadine and its derivatives, 299

Barium
Chemi-ionization cross-section by time profile measurements under crossed-beam conditions. The $Ba + Cl_2 \rightarrow BaCl^+ + Cl^-$ reactions, 271
Buckminsterfullerene
Calculation of heats of formation of intermediate radicals expected in the formation process of buckminsterfullerene, 159

C_3H_2
The proton affinity of C_3H_2, 175

Carbonyl cyanide
The structure of carbonyl cyanide. Comment on the paper by J. Tyrrell, J. Mol. Struct. (Theochem), 231 (1991) 87, 401
A reply to the comment by M. Dakkouri on the paper by J. Tyrrell, J. Mol. Struct. (Theochem), 231 (1991) 87, 403
CH_3OPF_2
The quantitative prediction and interpretation of the vibrational spectra of organophosphorus compounds. Part 5. Methoxydifluorophosphine CH_3OPF_2, 287
Chlorine
Chemi-ionization cross-section by time profile measurements under crossed-beam conditions. The $Ba + Cl_2 \rightarrow BaCl^+ + Cl^-$ reactions, 271

Dicarbonyls
Internal rotation in some dicarbonyls. Basis set dependence, 41
Dithieno[2,3-*b*:3′,2′-*d*]pyridine
Theoretical study of orientation in the nitration of dithieno [2,3-*b*:3′,2′-*d*]pyridine, 67
Dithieno[3,4-*b*:3′,4′-*d*]pyridine
Theoretical study on the nitration of pyridine: comparison with electrophilic substitution of dithieno[3,4-*b*:3′,4′-*d*]pyridine, 53

Formaldehyde
An ab initio SCF-MO study of the decomposition reaction of nitrosoethylene to formaldehyde and hydrogen cyanide, 167

Gluconolactone
The hydrolysis of 1,5-gluconolactone: semi-empirical methods and ^{13}C NMR confirmation, 235
H_2
Properties and reactivity of first and second row hydrides. Part 2. Reactions between the hydride cations and H_2 related processes, 1

$[H_3SiO_4]^-$
An ab initio molecular orbital study of the potential energy surface for the orthosilicate anion, $[H_3SiO4]^-$, 379
$HCNBH_3$
The isomerization of $HNCBH_3 \rightleftharpoons HCNBH_3$, 261
$HNCBH_3$
The isomerization of $HNCBH_3 \rightleftharpoons HCNBH_3$, 261
Hydride cations
Properties and reactivity of first and second row hydrides. Part 2. Reactions between the hydride cations and H_2 related processes, 1
Hydrocarbons
Quantum chemical studies on the sorption state of hydrocarbons in zeolites. SCC–Xα calculations on

propene adsorbed to a calcium-occupied six-ring cluster, 209
Hydrogen cyanide
An ab initio SCF-MO study of the decomposition reaction of nitrosoethylene to formaldehyde and hydrogen cyanide, 167
Hydroxypyrazoles
Tautomerism of N-unsubstituted pyrazolones (hydroxypyrazoles): MNDO and MNDO + CI study of C-substituted tautomers, 217

Inorganic ion pairs
Ab initio geometries and vibrational frequencies of coordination structures of inorganic ion-pairs, 361
L-lactate dehydrogenase
Mechanistic aspects of biological redox reactions involving NADH. Part 3. Quantum chemical studies of substrates for L-lactate dehydrogenase, 109

Ketenes
Concerning the nature of transition structures for the hydration of ketenes, 399

$M_{12}(I_h)$
Atomic overlaps, molecular orbitals and vibrational transformation in the polyhedral clusters $M_{12}(O_h)$ and $M_{12}(I_h)$, 15
$M_{12}(O_h)$
Atomic overlaps, molecular orbitals and vibrational transformation in the polyhedral clusters $M_{12}(O_h)$ and $M_{12}(I_h)$, 15
$MAlF_4$
Ab initio study on the MBF_4 and $MAlF_4$ molecules, 83
$MAlF_4$(M = H, Li or Na)
Ab initio MO calculations of high temperature gaseous fluorine complexes $MAlF_4$ (M = H, Li or Na): a comparative study using different basis sets, 251
MBF_4
Ab initio study on the MBF_4 and $MAlF_4$ molecules, 83
Momentum space
L'espace des impulsions: un espace pour le calcul et l'analyse de la structure electronique, 179

NADH
Mechanistic aspects of biological redox reactions involving NADH. Part 3. Quantum chemical studies of substrates for L-lactate dehydrogenase, 109
Nitrosoethylene
An ab initio SCF-MO study of the decomposition reaction of nitrosoethylene to formaldehyde and hydrogen cyanide, 167

Oxalic acid
Multiple internal rotation in oxalic acid, 389

Polyhex isomers
Numbers of polyhex isomers of particular chemical interest, 331
Polystyrene
Polystyrene models. Part 1. Ab initio study of selected alkyl substituted benzenes: toluene, ethylbenzene and isopropylbenzene, 341
Propyl radicals
Ab initio study of the structures and thermodynamic properties of some gem-disubstituted propyl radicals. The effects of ethyl groups on the stabilization energies of these disbustituted radicals, 315

Quasi-polycyclic molecules
Coding system for quasi-polycyclic structures, 199

Relativistic theory
Application of the relativistic theory to the spin-polarized local-density functional theory, 243

Shape
On shape, 139
Spin-polarized local-density functional theory
Application of the relativistic theory to the spin-polarized local-density functional theory, 243
Zeolites
Quantum chemical studies on the sorption state of hydrocarbons in zeolites. SCC-Xα calculations on propene adsorbed to a calcium-occupied six-ring cluster, 209
